WORK EXPERIENCE

Edunet Front-End Developer Intern

June 2024 - July 2024

Created a personal portfolio website with React.js, HTML, CSS, and JavaScript. Learned and used UI/UX best practices and responsive design, among other core front-end development principles. Improved my knowledge of component-based development by gaining practical experience with React.js. Improved debugging and problem-solving skills while working on practical projects. Grew more knowledgeable about contemporary web technologies and developed a keen interest in front-end programming.

PROJECTS

Personal Portfolio Website

[Link to Demo](#)

Technologies used : HTML, CSS, JavaScript, and React.js.

Created a flexible personal portfolio website to highlight abilities, completed projects, and work history. Flexbox and JavaScript animations were used to produce an interactive and captivating user interface. Cross-device compatibility was guaranteed for smooth operation on tablets, smartphones, and PCs. Incorporated a "Contact Me" form to facilitate direct communication with recruiters and possible employers. bespoke branding that reflects a distinct professional identity through altered color schemes and fonts.

Books Management Website

[Link to Demo](#)

Technologies used : MySQL, JavaScript, CSS, and HTML.

Created a system for managing books that lets users keep track of the books they've read and intend to read. Established a system of points to promote reading by fostering healthy competition among users. Created a user-friendly UI with HTML and CSS to ensure a smooth experience. MySQL and JavaScript were integrated to effectively maintain book records and dynamically handle changes. Improved database interface skills by gaining practical experience integrating MySQL with JavaScript.

Expense Tracker Web Application

Technologies used : Material-UI, React.js, React-Chart.js, Node.js, and Git An app for tracking expenses. Created an online application for managing personal finances that enables users to track spending patterns, make budgets, and record expenses. Detailed spending insights and real-time expense tracking were implemented. React-Chart.js was used to integrate dynamic data visualizations for transparent financial insights. Guaranteed interoperability across several devices, enabling smooth access on mobile, tablet, and desktop computers. Improved data security for privacy protection using authentication and encryption. Additional elements for cooperative financial planning include goal monitoring and expense sharing.

EDUCATION

2022 - 2026	Bachelor's Degree at SRM University - AP	(CURRENT GPA: (8.2)
2022	Class 12th - ISC	(81)
2020	Class 10th - ICSE	(77)

SKILLS

Web Design HTML, CSS, JS, C++ ,C.

Adaptability, quick learning, Analytical skills and Problem Solving.
